Professional Summary

Global Head of Product Design who blends artistry, technology, and AI-driven innovation to create meaningful product experiences. Over my career I've led global design orgs, modernized enterprise platforms, and delivered award-winning products recognized by Gartner and the American Advertising Federation. I bring a unique creative identity rooted in experimentation, storytelling, and system-level thinking. I build cultures where design, engineering, and AI collaborate seamlessly, empowering teams to move faster, push boundaries, and consistently deliver outcomes that improve how people work.

ACCOMPLISHMENTS AND STYLE

Global Design Leadership and Transformation

- Successfully led and transformed design functions at Smarsh and Allscripts, leveraging strong leadership, vision, and customer-centric design philosophy to create world-class products.
- Proven ability to build, scale, and mentor globally distributed design teams, with the ability to maintain a cohesive, customer-focused culture.

Design Mastery and Innovation

- Demonstrated mastery in UX/UI design, utilizing industry practices, standards, and protocols to drive innovative digital product design.
- Integrated AI technologies, including Chat GPT & Generative AI, into product designs, team workflows, while enhancing product functionality and user experience.

Product Design and Development

- Deep experience in all phases of product design: from research, ideation, and prototyping, to final specification design and implementation.
- Leveraged data and insights to inform design decisions and strategies, leading to a 90% increase in user satisfaction at Smarsh.

Stakeholder Collaboration

- Adept at working with cross-functional teams and stakeholders, including engineering, product management, and marketing to align design solutions with business objectives and market opportunities.
- Fostered strong collaborations between design and development teams, bridging the gap and enhancing productivity.

SaaS and Enterprise Software Design

- Led the design for SaaS business applications at Smarsh, with a focus on creating intuitive, user-friendly interfaces.
- Directed the creation of an AI-driven mobile application at Allscripts, significantly improving clinician workflow and patient outcomes.

Leadership Approach

- Invest in teams first - Building and mentoring teams on a personal career level allows deeper perspective on what motivates and drives them to be engaged, and deliver a higher quality work product.
- Fostering passion and curiosity at each level inside my organizations enables innovation, excitement to ignite across teams company wide.

Work Experience

Global Head of Product Design

Smarsh - Remote (Nashville)

December 2017 to Present

- Conceived, researched, designed, documented, and implemented a **Global Design Systems**, facilitating team collaboration and improving product consistency across various projects.
- Integrated **Chat GPT & Generative AI** into product design, enhancing interactivity and user engagement.
- Led product vision and design through insightful innovation rooted in quality user research. Collaborating with Machine Learning Data Scientists, Back-end Architects, and Interdisciplinary Developers.
- Established a **Global Enterprise Qualitative User Research Program** with a regular monthly cadence.
- Collaborated with the executive team, engineering leadership, and product management on product priorities and roadmap.
- Applied strong **communication** and **leadership** skills to direct a team of UX/UI designers,

Developers, Researchers while contributing to the successful delivery of multiple complex projects on time and under budget.

- Facilitated **cross-team collaboration** between the product, design, and development teams, effectively bridging the gap and enhancing overall productivity.
- Leveraged strong **problem-solving skills** to identify and resolve design issues, resulting in an unbelievable (but quantified) 90% increase in user satisfaction.

Director of User Experience

Allscripts / Avenel - Remote (Chicago, IL)

May 2016 to December 2017

- Implemented design-thinking methodology across the entire organization to enhance innovation and problem-solving capacity.
- Led a cross-functional team of designers and developers in creating an AI-driven mobile application, improving clinician workflow and patient outcomes.
- Collaborated with stakeholders and users to collect feedback, validate designs, and align product design with business and user needs.
- Directed the integration of Generative AI into product design, enhancing product functionality and usability.

Creative Director (UX)

Very - Remote (Chattanooga, TN)

October 2014 to May 2016

- Drove the future of world-class User Experience Design. Found the intersection between bleeding edge technology and effortless user experiences.
- Defined, prioritized, and drove deliverables aligning to the product roadmap including all user experience design assets.
- Led executive design reviews leveraging data and customer insight.

Other Relevant Experiences

- **MEDHOST, Inc.** Team Lead, February 2012 - October 2014
- **Iostudio** Interactive Creative Director, August 2009 - January 2012
- **Revolution Prep LLC** Lead Web Designer, March 2009 - July 2009
- **SK+G** Interactive Art Director / Information Architect, September 2007 - March 2009
- **Tyrale.com** Designer, May 2005 - January 2009
- **Palazzolo Design** Interactive Designer, April 2006 - August 2007

Skills

- **Figma:** Since Beta. Used in creating and implementing comprehensive UX/UI designs across various projects.
- **Chat GPT & Generative AI:** Since Beta. Utilized in enhancing product design and interactive user experience.
- **Product Design:** 15+ years. In-depth knowledge and experience in designing functional and user-friendly products.
- **Design Systems:** 10+ years. Developed and implemented effective design systems, enhancing consistency and efficiency.
- **Leadership:** 10+ years. Proven ability in leading cross-functional teams towards achieving common objectives.
- **Management:** 10+ years. Proficient in managing design projects, from conceptualization to implementation.
- **Adobe Creative Suite:** 15+ years. Adept at utilizing tools for designing and editing digital project elements.
- **Branding:** 15+ years. Expert in creating and managing brand designs, helping businesses establish their identity.
- **HTML5 & CSS:** 15+ years. Proficient in leveraging HTML5 and CSS in designing interactive websites.
- **Mobile Applications:** 15+ years. Extensive experience in designing functional and engaging mobile applications.

Education

Art Direction Post-Graduate
The Polishing Center

B.A. in Advertising and Public Relations
Grand Valley State University

Additional Information

The process of research, design, and problem-solving fascinates me daily. The opportunity to grow and innovate new or existing products drives me. Leveraging Machine Learning and Artificial Intelligence in innovative experiences built with Data Driven Design principles keeps me highly engaged in my work. With 15+ years of product design experience and management, I've developed a keen eye for detail (I keep metrics of every project I've worked on), and an understanding of when to be pixel perfect and when to prototype.
